DETAILED ACTION

Allowable Subject Matter

1. Claims 1 – 26 are allowable over prior art.

The following is an examiner's statement of reasons for allowance:

The prior art of the record fails to disclose the limitations "to receive a set of N complex data symbols output by the receiver multi-carrier filter bank and N channel coefficients (C_{est}) corresponding to each sub-carrier as estimated by a channel estimator of said receiver, where N is the number of used sub-carriers in the multi-carrier system, and adapted to select, on the basis of the N channel coefficients (C_{est}), a number M of sub-carriers corresponding to the M channel coefficients (C_{est}) having the largest absolute values, where $M \leq N$; and to determine, on the basis of N sub-carriers and their corresponding N channel coefficients (C_{est}), an estimate ($f_{off,est}$) of the frequency deviation (f_{off}) introduced into the multi-carrier symbols, where N is the number of sub-carriers used in the transmitter" to effect the evaluating in combination of other limitations recited in claims 1, 11, 16 and 20.

Any comments considered necessary by applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
